transition, which means that primary care and adult services will get paid for doing transition well and doing transition properly. This is hoped to be up and running 2023/24.

Pilots around transition in diabetes care 1 per region to take place. Looking to creating evidence-based material on what makes a good transition process.

Transition and Young Adult Care Pilot: Principles

	Pilot Sites (1/Region)				
Design Criteria	Based on previously scoped good practice criteria for 19-25 year-olds				
Selection Criteria	Varied site selection to ensure scalability and cross-learning for similar services				
Design Principles	Whole-population group focus led by specialist provider	Patient-centred and age appropriate care	Co-designed by CYP	Trained and competent staff	Multi-disciplinary
Timeline	Mobilisation: Q1 22/23 Pilot: July '22 – March '25				

4 |

AG asked what the difference with the framework of 2016 to 2022. The difference now is we have an opportunity to prioritize transition in a way that we haven't done before, so we have, obviously the CYP regional Leads. We have a reporting structure and looking to build incentives into this.

VV asked how the pilots' units will be chosen. FM stated they will be looking at units with differing traits. Units will bid to take part in the pilots. Information will be released on this.

Burdett National Transition Nursing Network Update - Louise Porter (National Lead Nurse, Burdett National Transition Nursing Network)

Work across England to roll out a quality improvement process for in transition that was developed in Leeds. Looking to develop a national training package with KP. Scoping exercise with GP's and the Royal college of GP's looking at how a pathway for transition can be developed for GP's. Early discussions about having an annual review for young people in transition.

The Seamless Transition Project –Kasia Muszynska, Programme Manager, The Seamless Transition Project

KM gave an outline of the project. [View presentation](#)

Key points:

- Funded by the North West Coast Clinical Network (NHSE)
- Four training modules created
- Key speakers identified and recorded during covid-19 pandemic
- Phase 1 of the 4 modules piloted at 3 sites: Liverpool, Preston and Alder Hey and all provided feedback.
- Lots of training required
