

National Technology CYP Diabetes Training Day for HCPs

20th May 2025 via MS Teams

9.30	Welcome by Chairs - Housekeeping & Aims	Anne-Marie Frohock & Dr Fiona Campbell
9.35	Introduction to the day:	Dr Fiona Campbell
9.45	NHSE update: the national HCL rollout and future plans for diabetes technology. Good practice, learning and recommendations re technology from diabetes GIRFT reviews.	Dr Fulya Mehta, NHSE CYA Diabetes National Lead
10.05	The impact of the use of HCL systems for CYP with an elevated HbA1c	Dr Roopa Vijayan, Evelina Hospital Barbara Widmer, PDSN at King's College & Evelina Hospitals
10.50	COFFEE BREAK	
11.05	How to overcome some common tricky areas encountered with HCL: Three Case studies: 1) Dealing with glucose spikes from 8pm to midnight 2) Closed Loops & Open Doors: Ending the Revolving Door of DKA Admissions using HCL therapy to finally break the cycle 3) The journey to a hope beyond diabetes: managing a child with high HbA1c	Jennifer Simpson, PDSN, Sheffield Ashley Mehnert, Young Adult DSN, Darlington Dr. Radhika Puttha, Consultant Paediatrician, Dudley
12.10	Resources session: Part 1 Technology related resources update	Maddie Julian, CEO, Digibete
12.35	LUNCH: <i>NENC mobile phone project video to be played</i>	
1.25	Patient Experiences: What difference has hybrid closed loop made to me?	Patients: Darcy, Millie and Benji

1.50	Experience of a team working with a patient in a secure unit and the impact of HCL	Dr Gomathi Margabanthu, Consultant Paediatrician, Lincoln County Hospital
2.20pm	Resources session: Part 2 Skin reaction leaflets	Rachel Moscrop, PDSN, Swindon
2.40pm	Closing the loop: A shared decision making pathway for Hybrid Closed Loop Systems	Southampton Team: Dr Matt Guy, Jo Summerton, Nabil Boulos, Alice Williams
3.05pm	Integrating psychology into the HCL pathway	Dr. Michael Cornish, Highly Specialised Clinical Psychologist, Evelina London Children's Hospital
3.20	COMFORT BREAK	
3.30pm	How to tackle the HCL/tech funding challenges: Example of a Trust & an ICB successfully overcoming challenges	Kiera Walker & Stella Carney, Buckinghamshire, Oxfordshire and Berkshire West ICB & Anne Marie Frohock, Dietitian, Oxford & Thames Valley CYPDN Chair
3.50	Innovation & Advancements in diabetes technology: What does the future hold? Feedback from ATTD conference	John Pemberton, Dietitian, Birmingham Children's Hospital
4.10pm	Closing session by Chairs	Anne-Marie Frohock
4.15pm	Close of day	

Aims of the training day:

To ensure all HCPs are aware of all tech and training resources available

To ensure all HCPs have the confidence & knowledge to assist their patients to make clinically informed choices re. the most appropriate HCL system

To enable HCPs to help patients overcome some of the problems encountered with HCL

To help enable HCPs / commissioners to overcome funding challenges

To inform HCPs of future plans for technology
