	Holly Robinson	NPDA Manager	RCPCH
Apologies			
	Name	Role	Network/Organisation
	Piyusha Kapila	Clinical Support	London/SEC
	Leah Brennan	Psychologist	London
Agenda:			
	Welcome and Recap from previous meeting - MC/ES		
	ES welcomed all to the meeting and gave the relevant apologies.		
	Update on patient education survey		
	The survey currently has 350 responses, there is more uptake in some regions versus others. Therefore ES will resent the survey to the network managers stating how many responses have been in the region. This will then be shared with the diabetes teams to encourage more sign up.		
	❖ ES to resent patient education survey to network managers		
	ES presented the current themes of the results of the survey which shows:		
	<ul style="list-style-type: none"> • Many receiving in-house diabetes teams education – debating around whether patients/families/carers would recognise branding of other patient education resources • Patients/families/carers would like more information on sick day rules at 3 months post diagnosis • Patients/families/carers would like more information on exercise at 3 months post diagnosis • Patients/families/carers would like more support at diagnosis linked to wellbeing and mental stability of dealing with a long term condition diagnosis 		
	Linking with other aim 1 work streams		
	During the summer 2023 meeting, ES will present the First Year of Care timeline, as the timeline will be finalised at this point and will be in the process of being trialled in a select number of units.
